Election/Restrictions

1. Applicant's election of Group II (claims 14-22) on 03/17/06 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 1-8 and 11-13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions, there being no allowable generic or linking claim. The election was made with Traverse.

Claim Rejections - 35 USC § 112

3. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 14-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 14, "mounting member being oriented generally normal to the plane of said base plate and projecting downwardly to permit securing said mounting member in a vertically oriented vice" is not accurate. It should be noted that the mounting member 86 is mounted in a vice that is oriented horizontally. The frame 30 of the vice is oriented horizontally. See Fig. 7.

Regarding claim 22, "a power saw which includes an arm member" is confusing. It is not clear how many power saws are being claimed. It the power recited in claim 22 is the same power saw power saw recited in claim 14. See claim 14, line 13 and claim 22, line 1.

Comment

5. It is noted that claims 14-22 have not been rejected over prior art. It appears that the

Art Unit: 3724

independent claim 14 reads over the cited prior art. However, in view of the issues under 35 U.S.C. 112, second paragraph, the allowability of the claimed subject cannot be commented on at this time.

Response to Amendment

6. Applicant's arguments with respect to claims 14-22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chen (6,829,972), King (2,942,633), Larson (4,202,233), Camacho (3,757,628), Stojanovski (6,708,422), Posont (6,752,059), Foreberg (2,735,455), Mascheier (4,901,444), Konieczka (2,823,709), Denyer (1,855,945), Drzewiecki (5,269,340), and Hopla (2,773,523) teach a portable saw base assembly.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than

Art Unit: 3724

SIX MONTHS from the mailing date of this final action.
